

# **RAVEGODS**

## **Decentralizing the Dancefloor**

### **Whitepaper (Solana Edition)**

## **1. Executive Summary**

RaveGods is a decentralized rave ecosystem merging live music, culture, and Web3 ownership.

Each NFT acts as both a ticket and a stake in a network of community-owned shows.

Profits from real-world events are distributed directly to holders in USDC through a Solana-based DAO.

RaveGods transforms fans into co-owners - turning every event into an on-chain celebration of collective energy.

## **2. Vision**

Rave culture has always been about unity, freedom, and shared experience.

RaveGods brings that ethos on-chain - creating the world's first decentralized rave economy.

Every beat, every light, every drop becomes a piece of a collectively owned movement.

### **3. Ecosystem Overview**

Layer	Function	Description
----- ----- -----		
RaveGods NFTs	Access + Governance	1,000 digital collectibles granting membership, event access, and DAO voting rights.
\$RAVE Token (SPL)	Utility + Rewards	Used for staking, governance, and ecosystem rewards.
RaveDAO Treasury	Collective Vault	Receives a percentage of profits from every event, redistributes USDC to holders.
Event Network	Real-World Activation	Live shows (avg. 3,000 attendees) generating on-chain profits through ticketing, merch, and sponsorships.

### **4. Real-World Utility**

#### **Access**

- VIP and early access to RaveGods events.
- NFT verification via Solana wallet at venue check-in.

#### **Revenue Share**

- % of each event's net profits sent to the DAO treasury.
- Rewards distributed quarterly in **USDC** to eligible holders.

#### **Governance**

- DAO governance through Realms on Solana.
- Holders vote on event locations, artists, treasury spending, and partnerships.

## Community Perks

- Limited-edition merchandise.
- Backstage meetups and artist access.
- Exclusive holder-only afterparties.

## 5. Tokenomics

### Token Details

**Name:** \$RAVE

**Standard:** SPL (Solana)

**Total Supply:** 100,000,000

Allocation	%	Vesting / Notes
----- --- -----		
DAO Treasury	25%	Locked; released by governance votes tied to event milestones.
Event Rewards Pool	20%	Used for staking rewards and holder distributions.
Public Sale	15%	Fair launch / IDO.
Liquidity & Market Making	15%	Jupiter / Raydium DEX pools.
Team & Advisors	15%	12-month cliff, 3-year vesting.

| Artists & Partners | 10% | For DJ collaborations and promoter incentives. |

### **Use Cases:**

- DAO voting power.
- Staking for USDC or \$RAVE yield.
- Ticket & merch discounts.
- Access to exclusive drops and collabs.

## **6. NFT Model (1,000 Supply Launch)**

| Tier | Supply | Mint Price | Utility |

|-----|-----|-----|-----|

| “RaveGod (Core)” | 900 | 0.25 SOL | Event access + DAO voting + USDC revenue share. |

| “RaveAngel (Elite)” | 90 | 1 SOL | 2× staking multiplier + VIP table + exclusive merch. |

| “Genesis Council” | 10 | Auction | 5× staking multiplier + DAO council seat + early treasury access. |

### **Royalties Split:**

- 50% → DAO Treasury
- 30% → Artist Pool
- 20% → Event Production Fund

**Launch Platform:** Magic Eden + Tensor

**Mint Format:** Whitelist + public mint (two-phase).

## 7. Revenue Distribution

### Example Event:

3,000 attendees × \$50 avg ticket = \$150,000 gross  
\$90,000 expenses → \$60,000 net profit.

### Distribution:

- 50% (\$30k) → DAO Treasury
- 30% (\$18k) → Operations & Future Shows
- 20% (\$12k) → Artists / Team.

### DAO Payouts:

Treasury distributes 50% of holdings quarterly.

Wallets verified via snapshot.

Rewards claimable in USDC through Solana program.

With a limited 1,000 NFT supply, early holders enjoy higher per-NFT yield.

## 8. DAO Governance

### Framework

Realms DAO (on-chain voting) + Squads multisig (treasury management).

**Council:** 7 members (3 community, 2 team, 2 partners).

## Voting Power

- Weighted by NFT Tier × \$RAVE holdings.
- 1 RaveGod = 1 vote unit.
- 1 \$RAVE = 0.001 vote unit.

## Proposals

- Minimum: 3 NFTs or  $\geq 0.1\%$  token supply.
- Voting window: 5 days.
- Quorum: 20% participation.

## Transparency

- Treasury activity visible on-chain.
- Quarterly IPFS-hosted reports.

## 9. Roadmap

| Phase | Timeline | Milestones |

|-----|-----|-----|

| “Phase I – Genesis Mint” | Q4 2025 | Mint 1,000 NFTs, deploy \$RAVE, launch DAO. |

| “Phase II – Pilot Events” | Q1 2026 | 3-city launch (NYC, Miami, LA) + first USDC distribution. |

| “Phase III – Governance Expansion” | Q2 2026 | Realms voting portal + staking dashboard + artist collabs. |

| “Phase IV – Global Expansion” | Q3–Q4 2026 | 10+ city circuit + RaveDAO Festival + cross-DAO partnerships. |

## 10. Brand Philosophy

RaveGods is not a concert promoter - it's a “**movement engine**”. Every light beam, every bassline, and every scream of joy feeds a decentralized circuit of energy.

We call it “**DeRave**” - decentralized rhythm.

The dancefloor is the DAO.

## 11. Legal & Compliance

RaveGods operates as a decentralized cooperative governed by a DAO.

**NFTs** represent “membership and utility”, not equity.

**USDC** rewards are “community distributions”, not dividends.

All financial flows are transparent and auditable on-chain.

**DAO** may later register as a “DAO LLC or cooperative” for jurisdictional compliance.

## 12. Technical Infrastructure

| Component | Tech Stack |

|-----|-----|

Blockchain	Solana
Token Standard	SPL (\$RAVE)
NFT Standard	Metaplex Core
DAO System	Realms + Squads
Treasury	USDC Vault
Ticketing	QR + Wallet Verification
Analytics	On-chain dashboard for events and revenue

## 13. Future Expansion

- **RaveMetaverse Streams:** Virtual live sets in 3D environments.
- **Artist NFT Drops** – Limited collections tied to exclusive mixes or visuals.
- **Yield Vaults:** Stake \$RAVE for APY in future liquidity loops.
- **Brand Partnerships:** Collaborations with nightlife, fashion, and Web3 brands.

## 14. Closing Manifesto

We're not just minting NFTs.

We're minting "**moments**".

We're not building another DAO.

We're "**building the next era of nightlife**".

Each holder is not a spectator - they're the "**heartbeat**".

Each event is not a show - it's a “**collective ritual**”.

**Welcome to RaveGods.**

**The dance floor is decentralized.**

**The rhythm is eternal.**
